Qixin® Portable aluminum alloy heavy duty ramps for trucks

1.Product Introduction

We supply Portable aluminum alloy heavy duty ramps for trucks. Our company devote into producing heavy-duty aluminum ramps that made of high-strength aluminum which will be widely used for rubber tracked machines a wheeled machines such as tractor, excavator, forklift, automobiles, harvester, ATV, motorbike and so on.

Description:

It's everybody's common target to finish work more efficiently when the labor costs are so high. For example, when you have a construction machine like excavator and it needs to be sent to the work place, you would need a pair of Portable aluminum alloy heavy duty ramps for trucks to assist you to load it onto the truck. The ramps are easy to install, and only need to be fixed to the trucked with a safety pin or belt. The excavator gets on the truck with the help of the ramps, and then the ramps are put back into the carriage. The whole process is easy and can be finished by one person.
